Architectural images for Thorpe Willoughby

Our site already has outline planning permission for new homes. The design would complement the other houses in the village using brick and grey or terracotta tiles.

We're proposing 16 different house styles across the development, with some of the latest architect elevations shown below.

The site for our proposed housing development is to the east of the village and accessed from Leeds Road.

New family homes

We're proposing to build 276 new family homes:

- Two-bed - 39
- Three-bed - 133
- Four-bed - 74
- Five-bed - 30

Benefits to the village

A significant number of homes will be affordable, helping local families stay in the area.

Other benefits include funding for local schools (£1.4m), new and improved walking and cycle paths, and new green-space for residents in the village.

Our Yare house type has 2 bedrooms

Our Darwin house type has 3 bedrooms

Our Buchan house type has 4 bedrooms

Our Buttermere house type has 5 bedrooms

Our Shakespeare house type has 5 bedrooms

The Miller Difference

We have a five star rating for Customer Satisfaction from the Home Builders Federation.

We're enormously proud of the homes we've built over the last 80 years and we've been listening and learning from our customers throughout that time. From insisting on the best workmanship and the highest quality materials, right through to recognising our responsibilities to the environment.

During this time we've seen many generations of families enjoy our homes and developments, and we've seen the happy, thriving communities they've become.
